Equal Distribution of Space!

Now Listen to This!

A perfect Shoe should contain not a single particle of space more than necessary, otherwise the Shoe becomes large and ungainly. The Dorothy Dodd Shoe leaves more space for the foot than any other Shoe we know of, yet the Shoe itself is absolutely smaller than the ordinary Shoe. That is because it equally distributes space.

DECIDES AGAINST COAL MINERS.

Judge Says Strike Commission's Orders Are Not Binding.

Sunbury, Pa., Nov. 13.—Judge Anton has rendered an opinion in which he decides that in the eyes of the law the decision of the anthracite strike commission is not binding on either the miners or the operators. This is the first legal decision on the subject.

The matter was brought before the court by the Llewellyn Mining company. The company refused to pay back wages allotted by the strike commission, and the miners of the Royal Oak colliery brought suit before Justice of the Peace Lloyd for the wages. The justice gave judgment in favor of the miners.

The company then began mandamus proceedings against Justice Lloyd, and the court decided in favor of the company.
